

RECA DIAFLEX RS10 AE

- The RS10 AE blade is a **Professional Quality** blade ideal for use in Asphalt
- Segment height 10mm
- A hard bond ideal for cutting asphalt and all abrasive materials
- The risk of severe undercutting is greatly reduced by the use of 3 drop segments, disrupting abrasive spoil at the base of the cut, helping to prevent the blade from wearing thin and/or segment loss.
- Suitable for wet and dry cutting
- Ideal for highway contractors, utilities contractors, local authorities, civil engineers and driveway contractors

Art Number	Diameter (mm)	Bore (mm)
0664 310 300	300	20
0664 310 355	355	25.4
